

## Spotlight on Lemay

### Solution Toolkit:

Autodesk® Revit®, Ideate StyleManager, and Ideate Explorer for Revit

## Ideate Software Tools Help Lemay Focus on Customers, Communities and Future Generations

Visit the [Lemay](#) website, and you can't help but be impressed with the long list of awards it has received in a wide range of areas, including architecture, landscaping, interiors and urban design.

Here are just three out of the 20 it received in 2019:

- [Bellechasse Transport Center](#) Canadian Architect Award of Merit
- [Place Vauquelin](#) The Architecture MasterPrize | Landscape Architecture, Public
- [Espace CDPQ](#) International Design Awards | Bronze in Interior Design, Office

*//The Ideate Software portfolio is awesome. Our teams are really happy with the tools."*

Lemay, a well-established Quebec firm, designs environments for its clients, the community and future generations. Its professionals bring a wide range of talents to create innovative solutions. They focus on design excellence, net positive and flawless execution to push design limits, create sustainable environments and attain perfection without worry.

Bellechasse Transport Center, Canadian Architect Award of Merit

### Lemay and Ideate Software

"Our teams are motivated by design challenges," said Jean-Marc Demeo, Gestionnaire BIM Principal, Lemay. "You can see, hear and feel the energy as they work together to explore options and create solutions."

To help them stay focused on creative thinking, Lemay provides the best technology, including Autodesk Revit software and Ideate Software applications. "The Ideate Software portfolio is awesome. Our teams are really happy with the tools," said Jean-Marc. "Ideate Explorer is a strong and stable tool we use every day, and Ideate StyleManager has been a huge game changer for many people in our company."

### Here are some ways in which Lemay uses Ideate Software tools:

#### Ideate Explorer:

- BIM Coordinators in charge of quality control use Ideate Explorer to get a quick view of a model and its current state
- People looking for specific items / families that they know are in a project save time by using Ideate Explorer to easily find them
- Everyday Revit users address model warnings fast and efficiently by using the Warnings Manager component of Ideate Explorer to focus on those that are most relevant

*//Ideate Explorer is a strong and stable tool we use every day."*

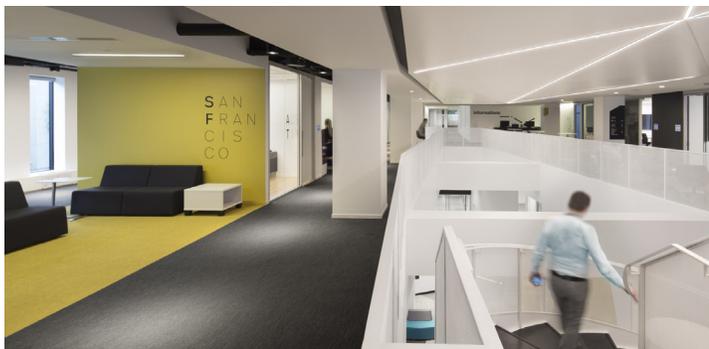

### Ideate StyleManager:

- BIM Coordinators love using Ideate StyleManager to understand the use of filters and to be able to wipe unused ones
- People use Ideate StyleManager to see doubles in linestyles, fill patterns and other styles, and to merge them
